

# JHOVANNA ANDREA OJEDA SANCHEZ

Web Development

## PROFILE

Student

I have no experience, but I'm ready to learn and develop in the workplace. Currently I'm looking for job opportunities on Web Development or Data Bases; even though I don't have experience, I have the bases and personal practices and if I don't know something, I can search and learn quickly; as a person I'm a proactive and responsible.

## HOBBIES

Continuous Study  
Web Development  
Watch Series and Movies

## EDUCATION

**Instituto Tecnológico de Tijuana**

2015 - Currently

**Career:** Engineering in Computer Systems

**Specialty:** Data Bases

During my study I led a team of 20 people to develop a mobile application focus on help children with attention problems, I was in charge of supervise the activities and timing, communicate with the client, present the advances and communicate any change or requirement with the team. On another opportunity I participate on the develop of a Web site prototype to online learning, the interesting part was the adaptation of the site to the learning style of the user and the identification of the themes were the user struggle the most. Currently I'm taking a course of Web Development where I learn the Front-End part berry well, I can build web sites in the front-end part with ease but I'm steel practicing the back-end part.
